You are required to compute the following -

- (1) Input Tax Credit (ITC) credited to Electronic Credit ledger;
- (2) Common ITC available for apportionment;
- (3) ITC attributable to exempt supplies out of common ITC;

Make suitable assumptions, wherever required and working notes as may be needed.

Brief notes are required only to support the calculation and the numerical outputs required in the case of common ITC available for apportionment and applicability of rule 86B of the CGST Rules.

Ensure that every transaction in the question is covered in the answer for the purpose of calculation of numerical outputs. **(14 Marks)**

**Answer**

**(1) Computation of ITC credited to Electronic Credit Ledger**

Particulars	Value (₹)	CGST (₹)	SGST (₹)	IGST (₹)
GST paid on intra-State inward supplies taxable @ 9%	40,00,000	3,60,000	3,60,000	
GST paid on inter-State inward supplies taxable @ 18%	10,00,000			1,80,000
Inward supplies exempt from GST [Since exempt, no GST is paid.]	5,00,000	--	--	--

Freight paid to GTA for intra-State of taxable goods <sup>1</sup> @ 2.5% [Since rate of GST on GTA services is 2.5%, tax is payable under reverse charge.]	48,000 [60,000 × 80%]	1,200	1,200	--
GST on freight paid to GTA for intra-State of exempt goods <sup>2</sup> @ 2.5% under reverse charge [ITC on input services used exclusively in relation to exempt supplies is not available.]	12,000 [60,000 × 20%]	--	--	
GST on telephone expenses <sup>3</sup> @ 9% [ITC of services used in the course or furtherance of business is available.]	30,000	2,700	2,700	
Premium paid on insurance taken on car used for firm's work [ITC is blocked u/s 17(5) on general insurance services relating to those motor vehicles which are ineligible for ITC.]	8,500	--	--	
Outdoor catering services [ITC on outdoor catering is blocked u/s 17(5) if the same is not used for making an outward supply of outdoor catering or as an element of a taxable composite/ mixed supply.]	40,000	--	--	

<sup>1</sup> It has been most logically presumed that remaining 80% of the freight has been paid exclusively on transportation of **taxable outward supply** of goods and GTA providing said services is registered in the State of Gujarat.

<sup>2</sup> It has been most logically presumed that freight has been paid on transportation of **outward supply** of exempt goods.

In case it is assumed that freight has been paid on transportation of **inward supply** of exempt goods, amount of ITC available with regard to the same will change accordingly.

<sup>3</sup> Telephone expenses have been considered to be in the nature of input services. Further, it has been assumed that the supplier is registered in the State of Gujarat.

GST on monthly rent for premises of sales outlet @ 9% <sup>4</sup> [ITC of services used in the course or furtherance of business is available.]	60,000	5,400	5,400	
<b>ITC credited to the electronic ledger</b>		<b>3,69,300</b>	<b>3,69,300</b>	<b>1,80,000</b>

## (2) Computation of common ITC available for apportionment

Particulars	CGST (₹)	SGST (₹)	IGST (₹)
ITC credited to Electronic Credit Ledger	3,69,300	3,69,300	1,80,000
Less: ITC on taxable goods	3,60,000	3,60,000	1,80,000
Less: ITC on freight paid to GTA for transportation of <b>taxable</b> goods	1,200	1,200	
<b>Common credit for apportionment</b>	<b>8,100</b>	<b>8,100</b>	<b>--</b>

## (3) Computation of ITC attributable towards exempt supplies

Particulars	CGST (₹)	SGST (₹)	IGST (₹)
ITC attributable towards exempt supplies = Common credit x (Aggregate value of exempt supplies during the tax period/ Total turnover during the tax period)			
[₹8,100 x (₹6,00,000/₹ 66,00,000)] <sup>5</sup>	<b>736</b>	<b>736</b>	

## (4) Computation of ITC available for utilization towards payment of tax in terms of rule 86B

Particulars	CGST (₹)	SGST (₹)	IGST (₹)
Maximum amount of output tax liability that can be discharged from ECrL [99% of Output tax liability]	4,00,950 [45,00,000 × 9% × 99%]	4,00,950 [45,00,000 × 9% × 99%]	2,67,300 [15,00,000 × 18% × 99%]

<sup>4</sup> It has been assumed that supplier of services of renting of premises is registered in the State of Gujarat.

<sup>5</sup> Telephone expenses have been considered to be in the nature of input services.

However, it is also possible to consider the telephone expenses to be in the nature of capital goods to be reversed in accordance with provisions with rule 43 of the CGST Rules, 2017.

[Since the value of taxable supply other than exempt supply in December 2021 (₹ 45 lakh + ₹ 15 lakh) exceeds ₹ 50 lakh, amount from electronic credit ledger which it can use to discharge its output tax liability of said month cannot exceed 99% of such tax liability in terms of rule 86B of the CGST Rules, 2017.]			
<b>Amount of ITC available for utilization towards payment of tax</b> [Since the ITC available in ECrL after reversal thereof is lower than the aforesaid amount, entire ITC can be utilised towards payment of GST.]	<b>3,68,564</b> [3,69,300 – 736]	<b>3,68,564</b> [3,69,300 – 736]	<b>1,80,000</b>

### Answer

- (a) Computation of GST liability of M/s A2Z for the month of March 2022<sup>6</sup>

S. No.	Particulars	CGST (₹)	SGST (₹)
1.	Loading, unloading, packing and warehousing of potato chips [Loading, unloading, packing and warehousing of agricultural produce is exempt. However, potato chips is not an agricultural produce.]	1,350 [15,000 × 9%]	1,350 [15,000 × 9%]

<sup>6</sup> The amounts given in the question have been assumed to be exclusive of GST. However, it is also possible to assume that the amounts given in the question are inclusive of GST.

2.	Fees paid for yoga camp [Services provided by a charitable trust registered under section 12AA of the Income-tax Act by way of advancement of yoga are exempt.]	--	--
3.	Interest received on fixed deposits [Services of extending fixed deposits in so far as the consideration is represented by way of interest are exempt.]	--	--
4.	Professional services provided to foreign diplomatic mission located in India [Not exempt.]	4,500 [50,000 × 9%]	4,500 [50,000 × 9%]
5.	Recovery agent services provided to ABC Finance Ltd., an NBFC [Since such services are being provided to an NBFC, tax on the same is payable by recipient - ABC Finance Ltd. - under reverse charge [RCM].]	--	--
6.	Security services provided to XYZ Ltd., a registered person [Since such services are being provided by a non-body corporate to a registered person, tax on the same is payable by recipient - XYZ Ltd. - under reverse charge [RCM].]	--	--
7.	Receipts from running an educational institution <sup>7</sup> (including receipts for residential dwelling service) [Services provided by an educational institution and services by way of renting of residential dwelling for use as residence are exempt.]	--	--
8.	<b><u>Alternative -I: It is assumed that motor vehicle is designed to carry passengers</u></b> Renting of motor vehicle service [Since services of renting of motor vehicle including cost of fuel with tax payable	--	--

<sup>7</sup> It has been most logically assumed that educational institution is the institution as defined under Notification No. 12/2017 CT (R) dated 28.06.2017/ Notification No. 9/2017 IT (R) dated 28.06.2017. Further, the balance receipts (apart from the receipts for providing residential dwelling service) from running the educational institution pertains to services provided by it to its students, faculty and staff.

	@ 2.5% CGST/SGST is being provided by a non-body corporate to a body corporate, tax on the same is payable by recipient – NPS Ltd. - under reverse charge [RCM].]		
	<b>OR</b>		
	<b>Alternative -II: It is assumed that motor vehicle is designed to carry goods</b> Renting of motor vehicle service [Not exempt.]	2,200 [88,000 × 2.5%]	2,200 [88,000 × 2.5%]
	<b>Alternative -I: It is assumed that motor vehicle is designed to carry passengers</b> <b>Total GST liability</b>	5,850	5,850
	<b>OR</b>		
	<b>Alternative -II: It is assumed that motor vehicle is designed to carry goods</b> <b>Total GST liability<sup>8</sup></b>	8,050	8,050

(b) **Computation of assessable value, basic customs duty, social welfare surcharge and IGST**

Particulars	Amount (\$)
FOB value computed by Customs Officer (including design and development charges <sup>9</sup> )	17,500
Add: Commission paid to local agent in India [Includible since it is not a buying commission]	<u>2,100</u>
FOB value as per customs	19,600
Add: Air freight (\$ 19,600 × 20%) [Restricted to 20% of FOB value since goods are imported by air.]	3,920
Add: Actual insurance charges	1,500
Assessable value in \$	25,020
<b>Assessable value</b> in rupees [\$ 25,020 × ₹ 75] [Rate of exchange notified by CBIC on the date of filing of bill of entry is considered.]	<b>₹ 18,76,500</b>

<sup>8</sup> Since the question requires computation of GST liability of the supplier – M/s A2Z, those outward supplies of M/s A2Z where recipient is liable to pay tax under reverse charge have not been taken into consideration while arriving at its GST liability.

<sup>9</sup> It has been most logically presumed that design and development is undertaken in USA and necessary for the production of imported goods.

Particulars	₹
Add: <b>Basic custom duty @ 15%</b> on ₹ 18,76,500 [Rate of BCD is the rate in force on the date of presentation of bill of entry or on the date of arrival of the aircraft, whichever is later]	<b>2,81,475</b>
Add: <b>Social Welfare surcharge @ 10%</b> on ₹ 2,81,475 (rounded off)	<b>28,148</b>

#### Answer

- (a) (i) Cheque discounting is exempt from GST only to the extent consideration is represented by way of discount.

Any charges other than discount is not exempt from GST.

Thus, charges recovered on cheque discounting by ABC Ltd. are liable to GST.

*Note: In the above answer, it has been assumed that the cheque discounting charges are the service charges collected over and above discount. However, it is also possible to assume that the said charges represent the discount amount. In that case, said charges will be exempt from GST.*

- (ii) Service of extending deposits, loans or advances in so far as the consideration is represented by way of interest is exempt.

Extra charges recovered for delay in payment of 2<sup>nd</sup> monthly instalment is taxable and is includible in the value of supply of the air conditioner.

- (iii) The place of supply of passenger transportation service to Mr. Ajit Khanna –an unregistered person – is London, i.e. the place where he embarked on the conveyance for a continuous journey.

(b) (i) **Determination of rate and amount of GST**

Particulars	Rate of GST	GST [CGST+SGST] (₹)
Composite supply of renting of guest house with other facilities [Renting of guest house being principal supply.]	18%  (Rate of principal supply)	75,600 [37,800+37,800] [₹ 1,500 × 20 suites × 50% × 28 days × 18%]
Separate supply of catering and food services	5%	3,500 [1,750+1,750] [₹ 70,000 × 5%]

(ii) Rate of GST applicable in the given case is 18%, i.e., the rate of GST applicable on air-conditioner maintenance service. Since the given supply is a continuous supply of service where in terms of contract, due date is not ascertainable, the time of supply of said services does not fall in February 2022 and thus, no GST is payable for said month.

## (c) Operating Software preloaded in the laptop forms an integral part of the laptop.

In a judicial pronouncement by Supreme Court<sup>10</sup>, the question as to whether the laptop supplied alongwith the software loaded on hard disk drive is to be classified as laptop has been answered in affirmative.

The Court observed that a laptop cannot work without operating system like windows. Therefore, the laptop along with software has to be classified as laptop and for valuation also, the laptop along with software has to be classified as one unit / laptop.

Hence, the statement is correct.

**Question 4**

#### Answer

(a) (i) Interest on tax payable in respect of supplies made during a tax period and declared in the return for the said period furnished after the due date shall be levied only on tax paid through electronic cash ledger.

In the given case, since return is filed belatedly, net tax payable in cash and interest thereon is computed as follows:

Particulars	CGST (₹)	SGST (₹)
Output tax payable	1,80,000	1,80,000
Less: Credit of CGST and SGST be utilized for payment of CGST and SGST respectively	70,000	70,000
Net tax (A)	1,10,000	1,10,000

Tax under reverse charge is payable in cash (B)	40,000	40,000
Total tax payable in cash [(A) + (B)]	1,50,000	1,50,000
<b>Interest payable @ 18% per annum (rounded off)</b>	<b>3,699</b> [1,50,000 × 18% × 50/365]	<b>3,699</b> [1,50,000 × 18% × 50/365]

- (ii) In the above case, if ITC available is ₹ 2,50,000 of CGST and SGST each, output tax payable in cash shall be nil (CGST as well as SGST). However, remaining ITC available cannot be utilised for payment of tax payable under reverse charge as it is not an output tax. Therefore, interest on delayed payment of tax will be as follows:

Particulars	CGST (₹)	SGST (₹)
<b>Interest payable @ 18% per annum (rounded off)</b>	<b>986</b> [40,000 × 18% × 50/365]	<b>986</b> [40,000 × 18% × 50/365]

- (b) (i) Since Jugnoo Enterprises is engaged exclusively in intra-State taxable supply of goods in Delhi, it becomes liable to register when its aggregate turnover exceeds ₹ 40 lakh, i.e., on 14<sup>th</sup> February, 2022.

Further, since it has applied for registration within 30 days from the date of becoming liable to register, the effective date of registration is the date on which it becomes liable to register, i.e., 14<sup>th</sup> February, 2022.

- (ii) The suggestion of the consultant is not correct.

Every registered person is required to keep and maintain, his books of accounts at his principal place of business.

Where more than one place of business is specified in the certificate of registration, the accounts relating to each place of business shall be kept at such places of business.

- (c) Before, the provisional assessment of duty, the importer shall execute a bond for the purpose of undertaking to pay on demand the deficiency between the duty as may finally assessed and the duty provisionally assessed and shall furnish prescribed amount of security for the payment of the duty deficiency.

The importer is liable to pay interest, on any amount payable consequent to the final assessment order @ 15% p.a. from the first day of the month in which the duty is provisionally assessed till the date of payment thereof.

Accordingly, amount of interest payable will be

$$= ₹ 1,40,000 \times 15\% \times 62/365$$

$$= ₹ 3,567 \text{ (rounded off)}$$
